

GUJARAT TECHNOLOGICAL UNIVERSITY

Minor Degree : Construction Technology

Subject Code: 114AC01

Semester – IV

Subject Name: Contemporary Materials for Construction

Prerequisite: Engineering Materials, Concrete Technology

Rationale: With extreme expansion in limits of structures, the demand on the materials has enhanced exponentially. This course includes application of high performance concrete, aluminum, steel, fiber reinforced polymers and special chemical used in modern construction practices. The applications of these materials and chemicals are increasing in practice to meet the demands of current time.
